PAUL MARCANTONI
PRIMARY EXAMINER
GROUP 1700

Art Unit: 1755

The following is an examiner's statement of reasons for allowance:

The prior art does not teach the specific method of reducing the amount of mercury affixed to a sorbent by passing heated flowing air through the openings of an air slide/fluidized bed conveyor. The prior art teaches air slides used at ambient temperature but not heating the air.

The claimed method teaches conveying and heating at the same time using the air slide which is not within the teaching of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Marcantoni whose telephone number is 571-272-1373.
